

MY WALK 193 by Chaplain Paul 193

I walk through the Valley of the Shadow of Death, into places few would dare to enter.
I see things that would make hearts of stone weep.
I hear things that would make the hairs on the back of your neck stand straight.
I smell things that would make even a sewer rat vomit.
I witness substandard food being served I wouldn't feed my dog let alone a member of my family.

I have seen sadness, corruption, loneliness, heartbreak, misery, and greed. These horrors persist because American society and our elected officials look the other way.
One day, each of us will face the brutal realities of our broken healthcare system. Whether it's our turn in a long-term care bed or someone we love, we will experience the living hell on wheels that so many endure today.

But I have no choice but to keep fighting.
I have lost too many people I love to the horrors of American Healthcare.
Stand up and fight back today, or lay down and suffer dearly tomorrow—for having done very little or nothing at all to improve the safety and quality of care.
The choice is yours.
